

smcp Psychotherapy Training Courses

Transactional Analysis is a psychological theory of personality. It offers ways of understanding our own personality and the relationships we have with others. It is also a form of psychotherapy.

Participation in the programme is flexible; the main training takes place at weekends and the first year group Saturdays and Wednesdays. Training criteria (apart from theory hours) towards accreditation can be achieved within 3 to 5 years or 4 to 6 years.

smcp Introduction to Human Personality Courses
